

Grading policy - Data Ethics

- Assignment 1 will be for 45

Assignment 1 Marks = (Marks Obtained / Total Marks) * 100

- Assignment 2 will be for 45

Assignment 2 Marks = (Marks Obtained / Total Marks) * 100

- Assignment 3 will be for 45

Assignment 3 Marks = (Marks Obtained / Total Marks) * 100

- Final Project will be for 38

Final Project Marks= (Marks Obtained / Total Marks) * 100

Total Marks = (Assignment 1 Marks + Assignment 2 Marks + Assignment 3 Marks + Final Project Marks) / 4

Example: (((42/45)*100)+ ((40/45)*100)+ ((44/45)*100)+ ((35/38)*100)) / 4 = 93.02

So, the final grading for this example is 93.02%

Please Note: Your total grades for Data Ethics will be as per the above structure(average of all 4) and will be published at the end of the Data Ethics course.
